

St. Gabriel of the Sorrowful Virgin School Phased School Reopening Health and Safety Plan

Each school entity must create a Health and Safety Plan which will serve as the local guidelines for all instructional and non-instructional school reopening activities. As with all emergency plans, the Health and Safety Plan developed for each school entity should be tailored to the unique needs of each school and should be created in consultation with local health agencies. Given the dynamic nature of the pandemic, each plan should incorporate enough flexibility to adapt to changing conditions. The templates provided in this toolkit can be used to document a school entity's Health and Safety Plan, with a focus on professional learning and communications, to ensure all stakeholders are fully informed and prepared for a local phased reopening of school facilities. A school entity's Health and Safety Plan must be approved by its governing body and posted on the school entity's publicly available website prior to the reopening of school. School entities should also consider whether the adoption of a new policy or the modification of an existing policy is necessary to effectively implement the Health and Safety Plan.

Each school entity should continue to monitor its Health and Safety Plan throughout the year and update as needed. All revisions should be reviewed and approved by the governing body prior to posting on the school entity's public website.

Preamble: Caring for Body and Soul

Jesus Christ – The Divine Physician

“As (Jesus) went ashore, He saw a great throng; and he had compassion on them, and healed their sick” (Mt 14:14).

The first line of St. John Paul II’s first encyclical letter *Redemptor Hominis* proclaimed this: *“The Redeemer of Man, Jesus Christ, is the center of the universe and history.”* It is a very apt reminder for us today that Jesus Christ stands at the center of all human life and each of our lives, especially when great trials and difficulties confront us. Over these past months, as the COVID-19 pandemic changed the way people throughout the world live their lives, the Lord Jesus has stood at the center of our existence. He continues to walk with us each day. Christ is the Redeemer and the Divine Physician who heals, guides and protects us and all whom we love. He is the answer to the deepest longings of the human heart and sheds the light of his love onto the darkness of our fears. He is hope and healing for the world.

One of our most pressing concerns is the education and the formation in the Catholic faith of our children and young people. No matter what questions and challenges may arise as we seek to open our Catholic schools, religious education and youth ministry programs, we believe that Jesus, our Redeemer and Divine Physician, is at the center of our endeavors. He who gazed with compassion upon the people gathered on the seashore two thousand years ago looks upon us with love and by his presence heals, strengthens, enlightens us and gives us hope to go on.

The Family – Basic Cell of the Body of Christ

In a public health crisis such as we are experiencing, much attention is necessarily and rightfully given to *the body*. This is the chief purpose of this document: to protect the bodily health of our students, families, staff and volunteers. But as a community of believers, we do well to reflect on our Church’s spiritual understanding of itself as *One Body in Christ* (1 Corinthians 12: 12-27). We are the Body of Christ: many individuals united as members of this Body, in and through our relationship with Jesus, our Head. Mindful of our identity as members of the Body of Christ, we recall that the ministry of Jesus Christ in which the Church participates is care for the “whole person”. That is to say, we are not only concerned with the physical good of individuals, but also their spiritual, emotional, social and intellectual well-being. This preamble is a reflection on those aspects of care which might otherwise be forgotten in our anxiety to respond to our present crisis. Highlighting these broader aspects of care for Christ’s Body, we first reflect on the primary element of any body, the cell.

The Church teaches that in both society and the Church, the family is the basic cell or most fundamental unit (CCC, 1656, 2207). “The family is the original cell of social life” (CCC, 2207). The home is the first school of love, compassion, truth and faith. Therefore, the stronger the family is, the stronger all of society and the Church will be. “Authority, stability, and a life of relations within the family constitute the foundations for freedom, security and fraternity within society...The family, (then), must be helped and defended by the appropriate measures” (2207). In this

hour of need, the Lord uses our schools and parishes to help and defend our families. We take to heart the need to keep the “family first”, to strengthen, support and engage the many families that are the foundation of our communities.

Dignity of the Human Person

Beginning in childhood, we experience that great truth which our faith teaches: that every human person is created in the image and likeness of God. The unconditional love which parents have for their children is a beautiful and powerful witness that the Lord created us out of love, to be loved, to give love, for love. This is the foundation of the “dignity of human person” which the Church proclaims and expresses in our care for our neighbors, especially the most vulnerable, those who are underrepresented and the marginalized.

Our personal freedom is also an outward manifestation of the divine image we bear. We often struggle in our proper understanding and experience of this freedom. Through Christ God gives us freedom, not as the license to do whatever we want, but as the ability to do what we ought. We receive this as Jesus’ own example, who “did not come to be served but to serve and to give his life as a ransom for many” (Matt 20:28).

We are faithful to our own personal dignity when we choose to do the good for which we are created; and we show reverence for the dignity of others in caring for their spiritual and physical needs. “The more one does what is good, the freer one becomes. There is no true freedom except in the service of what is good and just,” (CCC, 1733).

This understanding of our personal freedom, and the presence in every age and place of those experiencing poverty, sickness and need, has moved Christian women and men to respond in love to our neighbors in ways that are both simple and heroic. In a very particular way, the Church’s mission to preach the Gospel is found in its ministry to those suffering with physical illnesses, as it seeks to accompany them and work toward their health in body and soul. Therefore, as we respond to the COVID-19 crisis, let us each strive to respect the dignity of each person in our community, seeking their *total* care.

✓ Physical Care

“Do you not know that your body is a temple of the Holy Spirit within you, whom you have from God, and that you are not your own? For you have been purchased at a price. Therefore, glorify God in your body” (1 Cor 6:19-20). Have we ever thought of the body as a traveling “tabernacle”, God’s dwelling place which brings His presence to others? Yet as God chooses to live in us, this is what we are. Our physical selves, therefore, are not only integral to our personhood, but are ennobled by the Holy Trinity who lives within us by grace. We cannot understand ourselves apart from our physical bodies, nor can we accomplish good without them. That is why the Lord expects us to be good stewards of the bodies He has created. Taking care of our physical health allows us to fully offer ourselves in

service to the Gospel of Jesus Christ. St. Ignatius of Loyola taught, "It is not the soul alone that should be healthy; if the mind is healthy in a healthy body, all will be healthy and much better prepared to give God greater service."

✓ **Spiritual Care**

Our care for the spiritual health of every person is a genuine expression of our hope for eternal life. Together with the call to serve the physical needs of our neighbors which we recall especially with the *Corporal Works of Mercy*, (feed the body, shelter the homeless, care for the imprisoned, etc.), our Church has long maintained the teaching and tradition of the *Spiritual Works of Mercy*: counsel the doubtful, instruct the ignorant, admonish sinners, comfort the sorrowful, forgive injuries, bear wrongs patiently, pray for living and the dead.

Our lives in this world, and especially in the midst of a pandemic, present us with an abundance of opportunities to serve others with the love Christ. In the first place we do this in our care for the sick and those prone to physical illness, but also in our care for those suffering fear and anxiety and in our accompaniment of those who are discouraged or who may not know Jesus as our Redeemer and Diving Physician. The most excellent and effective "medicine" which Christians have available are the sacraments of the Church. In the sacraments each of us, again and again, is drawn into an encounter with the Lord Jesus, who heals us and makes us whole. The Holy Eucharist, in particular, is our "daily Bread" given to nourish in us the hope which Christ alone offers us.

✓ **Social and Emotional Care**

As already recalled, we are created by and exist through the love of a Trinitarian God. Imaging this original Community of Love, human persons are impelled to pursue a civilization of love among peoples. Inter-connectedness is not only a call, then, but also a personal need. Yet, facing social distancing, we experience certain restrictions to our interactions. Even still, we are never hindered in building and sustaining friendships and healthy relationships. Fostering self-awareness, impulse control, motivation, empathy, and social skills, help us to relate to others and to know ourselves. Through our closeness with God, our lives spill over with the Fruits His Spirit – love, joy, peace, patience, kindness, goodness, faithfulness, goodness and self-control -- which cultivate an emotional and social well-being built upon the love that is our God.

✓ **Intellectual Care**

Even in the midst of the COVID uncertainty, our schools and parishes are committed to serving the instructional needs of our students. This is modeled by the Second Vatican Council which insisted that "*Holy Mother Church must be concerned with the whole of man's life, even the secular part of it insofar as it has a bearing on his heavenly calling. Therefore, she has a role in the progress and development of education*" (*Gravissimum Educationis*). Education remains critically important in the formation of the human person by teaching how to live well now to be able to live with God for all eternity. Our schools and parishes serve both the faith community and society by educating children, young people and adults to contribute to the common good by becoming active and caring members of the communities, cities, and nation in which they live.

Facing many challenges as we reopen schools and provide faith formation and youth ministry in parishes in the fall, we, the Body of Christ, nonetheless take up this charge with faith, hope and love. Commissioned by the Son of God Himself for this holy work, we go forward confident that the One who began the good work in us will bring it to completion (Philippians 1: 6). As we implement the following guidelines to provide our children and young people with an excellent Catholic education and formation in a safe and healthy environment, we turn always to Him in our work and respond with unwavering faith:

“Jesus, we trust in You!”

Health and Safety Plan Governing Body Affirmation Statement

This resource draws on a resource created by the Council of Chief State School Officers (CCSSO) that is based on official guidance from multiple sources to include: the Centers for Disease Control and Prevention, the White House, American Academy of Pediatrics, Learning Policy Institute, American Enterprise Institute, Rutgers Graduate School of Education, the World Health Organization, the Office of the Prime Minister of Norway as well as the departments of education/health and/or offices of the governor for Idaho, Montana, New York, Texas and Washington, DC.

Health and Safety Plan: **St. Gabriel of the Sorrowful Virgin School**

All decision-makers should be mindful that as long as there are cases of COVID-19 in the community, there are no strategies that can completely eliminate transmission risk within a school population. The goal is to keep transmission as low as possible to safely continue school activities. All school activities must be informed by [Governor Wolf's Process to Reopen Pennsylvania](#). The administration has categorized reopening into three broad phases: red, yellow, or green. These designations signal how counties and/or regions may begin easing some restrictions on school, work, congregate settings, and social interactions:

- The Red Phase: Schools remain closed for in-person instruction and all instruction must be provided via remote learning, whether using digital or non-digital platforms. Provisions for student services such as school meal programs should continue. Large gatherings are prohibited.
- The Yellow Phase and Green Phase: Schools may provide in-person instruction after developing a written Health and Safety Plan, to be approved by the local governing body (e.g. board of directors/trustees) and posted on the school entity's publicly available website.

Based on your county's current designation (i.e., red, yellow, green) and the best interests of your local community, indicate which type of reopening your LEA has selected by checking the appropriate box in row three of the table below. Use the remainder of the template to document your LEA's plan to bring back students and staff, how you will communicate the type of reopening with stakeholders in your community, and the process for continued monitoring of local health data to assess implications for school operations and potential adjustments throughout the school year.

Depending upon the public health conditions in any county within the Commonwealth, there could be additional actions, orders, or guidance provided by the Pennsylvania Department of Education (PDE) and/or the Pennsylvania Department of Health (DOH) designating the county as being in the red, yellow, or green phase. Some counties may not experience a straight path from a red designation, to a yellow, and then a green designation. Instead, cycling back and forth between less restrictive to more restrictive designations may occur as public health indicators improve or worsen. This means that your school entity should account for changing conditions in your local Health and Safety Plan to ensure fluid transition from more to less restrictive conditions in each of the phase requirements as needed.

Type of Reopening

Key Questions

- How do you plan to bring students and staff back to physical school buildings, particularly if you still need social distancing in place?
 - <<Each local school must answer how this will be done at their local school>>
- How did you engage stakeholders in the type of re-opening your school entity selected?
 - A diocesan-wide planning team that consisted of local principals and central administration was formed to research best practices and gather research based resources. Local school parents were surveyed to provide us with valuable insight on the perceptions and feelings of our families regarding education during COVID-19. The Recovery plan was then drafted using the best available resources and then vetted through various focus groups composed of local teachers, parents and pastors.
- How will you communicate your plan to your local community?
 - The COVID-19 Educational Recovery Plan will be disseminated to all stakeholder groups (Administrators, Parents, Teachers) via email. The document will be placed on the local schools' websites for public inspection.
- Once you reopen, what will the decision-making process look like to prompt a school closure or other significant modification to operations?
 - Decisions will be made by the pandemic team in coordination with local and state health agencies.

Based on your county's current designation and local community needs, which type of reopening has your school entity selected?
(SELECT ONE BOX BELOW)

- Total reopen for all students and staff (but some students/families opt for distance learning out of safety/health concern).
- Scaffolded reopening: Some students are engaged in in-person learning, while others are distance learning (i.e., some grade levels in-person, other grade levels remote learning).
- Blended reopening that balances in-person learning and remote learning for all students (i.e., alternating days or weeks).
- Total remote learning for all students. (Plan should reflect future action steps to be implemented and conditions that would prompt the decision as to when schools will re-open for in-person learning).

Anticipated launch date for in-person learning (i.e., start of blended, scaffolded, or total reopening): August 27, 2020

Pandemic Coordinator/Team

Each school entity is required to identify a pandemic coordinator and/or pandemic team with defined roles and responsibilities for health and safety preparedness and response planning during the phased reopening of schools. The pandemic coordinator and team will be responsible for facilitating the local planning process, monitoring implementation of your local Health and Safety Plan, and continued monitoring of local health data to assess implications for school operations and potential adjustments to the Health and Safety Plan throughout the school year. To ensure a comprehensive plan that reflects the considerations and needs of every stakeholder in the local education community, LEAs are encouraged to establish a pandemic team to support the pandemic coordinator. Inclusion of a diverse group of stakeholders is critical to the success of planning and implementation. LEAs are highly encouraged to make extra effort to engage representatives from every stakeholder group (i.e., administrators, teachers, support staff, students, families, community health official or other partners), with a special focus on ensuring that the voices of underrepresented and historically marginalized stakeholder groups are prioritized. In the table below, identify the individual who will serve as the pandemic coordinator and the stakeholder group they represent in the row marked “Pandemic Coordinator”. For each additional pandemic team member, enter the individual’s name, stakeholder group they represent, and the specific role they will play in planning and implementation of your local Health and Safety Plan by entering one of the following under “Pandemic Team Roles and Responsibilities”:

- **Health and Safety Plan Development:** Individual will play a role in drafting the enclosed Health and Safety Plan;
- **Pandemic Crisis Response Team:** Individual will play a role in within-year decision making regarding response efforts in the event of a confirmed positive case or exposure among staff and students; or
- **Both (Plan Development and Response Team):** Individual will play a role in drafting the plan and within-year decision making regarding response efforts in the event of confirmed positive case.

Individual(s)	Stakeholder Group Represented	Pandemic Team Roles and Responsibilities (Options Above)
Mr. Don Militzer	School Principal	Oversee Implementation
Mr. Ronald Meyer	Head of Maintenance	Implementation of Plan
Mrs. Christie Gray	Teacher	Faculty Representative
Mrs. Debbie O’Brien	Business Manager/Facility Supervisor	Consultant
Mrs. Stephanie Kress	Registered Nurse and Parent	Consultant

Key Strategies, Policies, and Procedures

Once your LEA has determined the type of reopening that is best for your local community and established a pandemic coordinator and/or pandemic team, use the action plan templates on the following pages to create a thorough plan for each of the requirements outlined in the Pennsylvania Department of Education’s Preliminary Guidance for Phased Reopening of PreK-12 Schools.

For each domain of the Health and Safety Plan, draft a detailed summary describing the key strategies, policies, and procedures your LEA will employ to satisfy the requirements of the domain. The domain summary will serve as the public-facing description of the efforts your LEA will take to ensure health and safety of every stakeholder in your local education community. Thus, the summary should be focused on the key information that staff, students, and families will require to clearly understand your local plan for the phased reopening of schools. You can use the key questions to guide your domain summary.

For each requirement within each domain, document the following:

- **Action Steps under Yellow Phase:** Identify the discrete action steps required to prepare for and implement the requirement under the guidelines outlined for counties in yellow. List the discrete action steps for each requirement in sequential order.
- **Action Steps under Green Phase:** Identify the specific adjustments the LEA or school will make to the requirement during the time period the county is designated as green. If implementation of the requirement will be the same regardless of county designation, then type “same as Yellow” in this cell.
- **Lead Individual and Position:** List the person(s) responsible for ensuring the action steps are fully planned and the school system is prepared for effective implementation.
- **Materials, Resources, and/or Supports Needed:** List any materials, resources, or support required to implement the requirement.
- **Professional Development (PD) Required:** In order to implement this requirement effectively, will staff, students, families, or other stakeholders require professional development?

In the following tables, an asterisk (*) denotes a mandatory element of the plan. All other requirements are highly encouraged to the extent possible.

Cleaning, Sanitizing, Disinfecting, and Ventilation

Key Questions

- How will you ensure the building is cleaned and ready to safely welcome staff and students?
 - The school buildings are always cleaned in the summer in preparation for the return to school. At minimum, classrooms, restrooms, cafeteria floors are stripped and waxed, and desks and chairs washed. Cleaning should be done with soap and water, then followed by the application of an EPA-approved disinfectant (see www.epa.gov). Disinfectants differentiate themselves from other cleaning products by killing germs with chemicals rather than removing them. According to the [Centers for Disease Control and Prevention \(CDC\)](https://www.cdc.gov), disinfectants should be used on surfaces that have already been cleaned of dirt and grime—especially high-touch surfaces—to prevent the spread of diseases. Frequently touched surfaces, such as desks, light switches, keyboards, will be cleaned regularly throughout the school day and disinfected after school each day.. Recommended disinfectants, include the following: **Bleach:** [Clorox Disinfecting Bleach](#); **Multipurpose Cleaner:** [Lysol Clean & Fresh Multi-Surface Cleaner](#); **Toilet Cleaner:** [Clorox Toilet Bowl Cleaner with Bleach](#). Classrooms should be cleaned and disinfected, and then closed off to others. Schools should also purchase a recommended spray disinfectant, which can be sprayed with a wand, for in-between disinfecting and quick and easy use on surfaces and floors. School administration may wish to consult with local professional cleaning companies for effective cleaning and disinfectant supplies and procedures, for their school building.
- How will you procure adequate disinfection supplies meeting OSHA and [CDC requirements for COVID-19](#)?
 - The schools will purchase products recommended by the CDC and EPA. One avenue of purchase will be to use the School Safety grant through the Intermediate Units; these funds can assist with procuring disinfection supplies, and other cost related to proper cleaning and sanitizing. Schools should be sure to procure enough disinfection supplies for student enrollment, staff, and overall size of the school building. Hand sanitizers, disinfectant wipes, etc. should be utilized throughout the school day. Other EPA approved cleaning supplies can be used, one such approved product is BactroKill Plus (made in PA) with an EPA Category IV rating for toxicity. It is on the EPA list and is eco-friendly.
- How often will you implement cleaning, sanitation, disinfecting, and ventilation protocols/procedures to maintain staff and student safety?

The initial cleaning will have been done before the students and staff return to school. Once school is in session, staff can conduct the regular cleaning of areas, particularly highly touched surfaces, using a product that is both a cleaner and a disinfectant. During the day, while school is in session, the staff should regularly wipe door knobs, railings, and other frequently touched surfaces with a disinfectant cleaner. Bathrooms should be cleaned and disinfected regularly throughout the school day, such as at every hour. Hand sanitizing pumps will be placed in the hallways for easy access at all times for everyone.

Current evidence suggests that SARS-CoV-2 may remain viable for hours to days on surfaces made from a variety of materials. Cleaning of visibly dirty surfaces followed by disinfection is a best practice measure for prevention of COVID-19 and other viral respiratory illnesses in

households and community settings. The latest information available on how long COVID-19 remains on surfaces should be used to determine the schedule of cleaning. Parents need to be aware of the following.

- The inner layer of a mask for up to four days
- The outer layer of a mask for up to seven days

- Which stakeholders will be trained on cleaning, sanitizing, disinfecting, and ventilation protocols? When and how will the training be provided? How will preparedness to implement as a result of the training be measured?
 - All stakeholders will be trained on appropriate methods to keep surfaces, learning spaces, classrooms, desks, hands, materials, etc. clean. Maintenance staff will be trained on the process to keep restrooms, hallways, staircases, floors, banisters, ventilations systems, classrooms, etc clean and sanitized.
 - Training will be provided during Professional Development sessions in August, and in October, if needed, and throughout the school year, when needed. If possible, training videos such as these from **32BJ** (<https://www.youtube.com/watch?v=tbGvwmeyVO4>) or from **Corovox** (<https://www.youtube.com/watch?v=mCBRKPZWY0g>) or from **Babylon Health** (https://www.youtube.com/results?search_query=handwashing+videos+for+covid) will be used to assist staff with proper cleaning and sanitizing procedures related to student and staff safety during the school day.
 - Cleaning verification forms will be signed off by staff to verify preparedness to implement cleaning protocols during the school day.

Faculty Staff Training Protocol Verification Form for Cleaning/Sanitizing

I, _____ have viewed the suggested videos and understand the proper protocol for cleaning
(Print Legibly)

and sanitizing all areas in which I work and/or oversee. My understanding includes proper procedures for hand washing, cleaning surfaces, cleaning high touch areas, disinfecting and sanitizing all areas in which I come in contact. I also understand how to teach children in my care how to successfully wash their hands to help prevent the spread of viruses, in particular COVID-19.

Signature _____ Date _____

Summary of Responses to Key Questions:

Each school building will be thoroughly cleaned and sanitized during the summer months, and the classrooms will be closed off to others until ready for use. Cleaning and sanitizing materials must be purchased and meet all of the EPA guidelines and must be kept in a secure location away from students. Frequent cleaning and sanitizing will occur throughout the school day, especially any highly touched surfaces, such as doorknobs, light switches, desks, etc. All staff members will be instructed on the proper cleaning methods to be used to keep the building clean and sanitized. Cleaning and sanitizing materials will be provided for each classroom and will be replaced as needed. Hand sanitizing pumps will be placed in the hallways so as to be readily available to everyone.

Requirements	Action Steps under Yellow Phase	Action Steps under Green Phase	Lead Individual and Position	Materials, Resources, and or Supports Needed	PD Required (Y/N)
<p>* Cleaning, sanitizing, disinfecting, and ventilating learning spaces, surfaces, and any other areas used by students (i.e., restrooms, drinking fountains, hallways, and transportation)</p>	<p>All surfaces and floors will be cleaned and disinfected with EPA approved products. Highly touched surfaces, such as doorknobs, light switches, desks, etc. will be sanitized frequently throughout the school day.</p> <p>Hand sanitizer will be available in all classrooms and in hallways, and replaced when needed.</p> <p>Water fountains will be covered and not permitted to be used. Rugs and any fabric surfaces (such as chairs with fabric on them) should be removed, or reduced in number, if possible.</p> <p>When possible, and safe, windows and inside doors will be left open to allow for increased ventilation throughout the school day.</p> <p>Clean bathrooms regularly throughout the school day, such as every hour.</p>	<p>Same as Yellow</p>	<p>Teachers, Principals, and maintenance staff</p>	<p>EPA approved disinfectants for all areas of school building, such as floors, hallways, walls, etc.</p> <p>Large containers of disinfectant wipes for quick and effective sanitization.</p> <p>Spray bottles of EPA approved disinfectant.</p> <p>Hand sanitizer for classrooms and hallways.</p>	<p>Yes, training in cleaning protocols</p>
<p>Other cleaning, sanitizing, disinfecting, and ventilation practices</p>					

Social Distancing and Other Safety Protocols

Key Questions

- How will classrooms/learning spaces be organized to mitigate spread?
 - Student desks will be spaced 3 feet to 6 feet apart. “School officials may wish to investigate whether a three-foot or six-foot minimum is feasible in their school setting; although three feet appears to associate with a drop in transmission, using the CDC-recommended six feet may be more appropriate when considering settings with imperfect compliance, such as those with children.” Pg 12 *Reopening PA Schools PDF*
 - Optional: Student desks will have plastic shields around them which are cleaned daily ([Clear Plastic Study Carrel](#))
 - Dedicated technology devices for each child
 - No shared supplies including classroom books
 - Hand sanitation stations in each room
 - Eliminate assemblies, field trips/recreation activities
 - Assigned seating to help track virus spread if a student/staff tests positive for COVID-19
 - Turn desks to face in the same direction (rather than facing each other), or have students sit on only one side of tables, spaced apart.
 - Create distance between children on school buses (i.e., seat children by one child per row, skip rows) when possible
- How will you group students with staff to limit the number of individuals who come into contact with each other throughout the school day?
 - Students will remain in and with their homerooms for all classes, including lunch
 - Block scheduling
 - One-way hallway traffic routes
 - Grades K – 4 teachers will remain with students for the day
 - Specials teachers will push into the classroom for class
 - Prohibit physical contact such as handshakes, fist-bumps, high-fives, etc.
- What policies and procedures will govern use of other communal spaces within the school building?
 - Utilization of multiple buildings for a single school to allow for social distancing
 - Utilize gymnasium and/or other large group areas
 - Utilize churches if necessary and/or possible
 - Provide physical guides, such as tape on floors or sidewalks and signs on walls, to ensure that staff and children remain at least six feet apart in lines and at other times (i.e., guides for creating “one-way routes” in hallways)
 - Close communal use shared spaces such as cafeterias and playgrounds with shared playground equipment if possible; otherwise, stagger use and clean and disinfect between use
- How will you utilize outdoor space to help meet social distancing needs?
 - Physical Education classes will be held outdoors weather permitting
 - Outdoor recess at least once a day for the youngest students (K-4)
 - Outdoor recess at least once a day for the oldest students (5 – 8)
 - Outdoor lecture classes for the older students whenever possible (4 – 8)
- What hygiene routines will be implemented throughout the school day?
 - Temperatures will be taken as students and staff enter the building

- (possible resources)
 - Infrared Temperature Scanner
 - [GoSafe](#)
 - Forehead thermometers
- Regular cleaning of restrooms
- Students will bring their own water bottle to school. Water fountains will not be in use.
- Open windows when weather permits
- Utilize visual cues (floor markings)
- Create transition schedules that minimize numbers in common spaces; hallways, cafeteria, etc.
- Frequently clean surfaces, especially stair handrails, door handles, counters, desks, tables, chairs, bathrooms, computers, books, etc.
- How will you adjust student transportation to meet social distancing requirements?
 - Page 18 *Reopening PA Schools* - Respondents offered various strategies that school districts should consider in addition to physical distancing to reduce transmission on buses. These include the following:
 - Requiring students, drivers, and aides to wear masks on buses, even if they are not required during the rest of the school day (this assumption was made in conjunction with the agent-based modeling discussed in Section 3 of this memo)
 - Installing a transparent, flexible divider between the bus driver and students so the bus drivers do not have to wear masks that would impact their ability to safely operate the vehicle
 - Increasing ventilation by opening windows whenever possible to reduce aerosol transmission
 - Adopting strategic student placement to coordinate pick up and drop off locations to minimize unnecessary contact with other students, including assigning students' seating with those first on in the back of the vehicle and last on at the front of the bus and vice versa on the return trip
 - Staggering school bus schedules to allow fewer students on a bus at a time
 - Assigned seating for riders and the possibility of needing more buses
 - Stagger arrival and drop-off times or locations by cohort or put into place other protocols, to limit contact between cohorts and direct contact with parents as much as possible
- What visitor and volunteer policies will you implement to mitigate spread?
 - Limit volunteers
 - Entrance only permitted if temperature is under 99.4°F using Axillary or temporal modes.
 - Require masks
- Will any of these social distancing and other safety protocols differ based on age and/or grade ranges?
 - Students will remain in and with their homerooms for all classes, including lunch
 - In grades K – 4 Teachers will remain with students for the day (Ability grouped classes will change)
 - Specials teachers will push into the classroom for class
- Which stakeholders will be trained on social distancing and other safety protocols?
 - All staff, faculty and parish administration
- When and how will the training be provided?

- Training will be provided by: School District Nurse, IU Staff Members, and the COVID Team. The training will begin for all staff and faculty 2 weeks prior to the beginning of the school year.
- How will preparedness to implement as a result of the training be measured?
 - CDC guidelines

Summary of Responses to Key Questions:

Each building will be required to have Social Distancing and Safety protocols in place during the school year. Administration will develop a plan

based on CDC Guidelines that will require limiting volunteers within the building, changing schedules to limit the amount of places traveled and using a variety of ways to display proper hygiene and social distancing requirements.

Requirements	Action Steps under Yellow Phase	Action Steps under Green Phase	Lead Individual and Position	Materials, Resources, and or Supports Needed	PD Required (Y/N)
* Classroom/ learning space occupancy that allows for 6 feet of separation among students and staff throughout the day, to the maximum extent feasible	<ol style="list-style-type: none"> 1. When appropriate, in the yellow phase, schools will be utilizing a hybrid-model to limit the number of students in the building and classrooms. 2. Essential employees only will be in the building. 3. All monitoring of student and staff Action Steps outlined in the green phase will be in place in the yellow phase. 	<ol style="list-style-type: none"> 4. Student desks will be spaced 3 – 6 feet apart (dependant upon current guidelines) with plastic shields around them which are cleaned daily. Plastic shields optional. 5. Teachers will push into the classrooms to teach different subjects, instead of the students. 6. Move any non-essential furniture, materials of equipment that is not needed and store them in a place outside of the room 7. Desks should all face in the same direction. 8. It is recommended that teachers use face shields, so students can see their lips as they are proving direction and instruction. 9. Each student is encouraged to provide their own supplies to reduce the need to share supplies. 	Teacher	<ol style="list-style-type: none"> 1. Plastic shields (optional) 2. Classroom relocation if necessary 	N

<p>* Restricting the use of cafeterias and other congregate settings, and serving meals in alternate settings such as classrooms</p>		<ol style="list-style-type: none"> 1. Students will have lunch served in their classroom. 2. Boxed lunches will replace the cafeteria line. 	<p>Cafeteria Manager, Volunteers, Teachers</p>		<p>N</p>
<p>* Hygiene practices for students and staff including the manner and frequency of hand-washing and other best practices</p>		<ol style="list-style-type: none"> 1. Training will be provided by a School District Nurse or Local Pandemic Team and begin for all staff and faculty 2 weeks prior to the beginning of the school year. 2. Hand sanitation stations in each room. 	<p>Teachers, Teacher aides</p>	<ol style="list-style-type: none"> 1. Sanitation stations 2. Public school nurse 	<p>Y</p>
<p>* Posting signs, in highly visible locations, that promote everyday protective measures, and how to stop the spread of germs</p>		<ol style="list-style-type: none"> 1. Decals and floor visuals indicating six foot distancing will be included in classrooms, hallways and communal spaces. 2. One-way traffic patterns for hallways, staircase. 3. Decals will be displayed in bathrooms on appropriate hand washing. 	<p>Maintenance</p>	<ol style="list-style-type: none"> 1. Floor decals/tape 	<p>N</p>
<p>* Identifying and restricting non-essential visitors and volunteers</p>		<ol style="list-style-type: none"> 1. Limit or restrict volunteers. 2. All visitors to the building will have their temperature taken upon entry. Entrance only permitted if temperature is under 99.4°F using Axillary or temporal modes. 3. Only visitors who need to drop off or pick up students will be admitted to the building. 	<p>Office Staff</p>	<ol style="list-style-type: none"> 1. Thermometers or body temperature scanners 	<p>N</p>

<p>* Handling sporting activities for recess and physical education classes consistent with the CDC Considerations for Youth Sports</p>		<ol style="list-style-type: none"> 1. Use outdoor spaces as much as possible. 2. Stagger recess time so only one class is at recess at a time. 3. Limit the use of shared objects (gym equipment, art supplies, toys, games) 4. CDC considerations for youth sports <ol style="list-style-type: none"> a. High school Athletics health and safety plan (needs to be adapted for elementary) 	<p>Teachers, Physical Education Teacher, Teacher's Aides</p>	<p>Liability Waiver</p>	<p>Y</p>
<p>Limiting the sharing of materials among students</p>		<ol style="list-style-type: none"> 1. All students are required to have their own supplies. 2. Library books can be checked out, but need to be put aside for one week increments before being checked out again. 3. If possible, schools will implement a one-to-one technology program for all students. 	<p>Teachers</p>	<ol style="list-style-type: none"> 1. Electronic devices for one-to-one 2. Textbooks 	<p>N</p>
<p>Staggering the use of communal spaces and hallways</p>		<ol style="list-style-type: none"> 1. Create transition schedules that minimize numbers in common spaces; hallways, cafeteria, etc. 	<p>Principal & Teachers</p>		<p>N</p>
<p>Adjusting transportation schedules and practices to create social distance between students</p>		<ol style="list-style-type: none"> 1. Implement two drop off areas, one for buses and one for car drop off. 2. Bussing issues are dependent upon the local school districts who transport to Catholic Schools. 	<p>Transportation Directors</p>	<ol style="list-style-type: none"> 1. Collaboration with local public school districts 	<p>N</p>
<p>Limiting the number of individuals in classrooms and other learning spaces, and interactions</p>		<ol style="list-style-type: none"> 1. Specials teachers will push into the classrooms 2. Grade 4 – 8 teachers will push into classrooms for their certified specialty (math, science, language arts, social studies) Create a 	<p>Principal & Teachers</p>		<p>N</p>

between groups of students		transition schedule for teachers to cover classrooms.			
Coordinating with local childcare regarding on site care, transportation protocol changes and, when possible, revised hours of operation or modified school-year calendars		1. Limit the number of children in before-school and after-school care programs.	Supervisors		N
Other social distancing and safety practices		1. No assemblies or large gatherings of students. (Virtual assemblies and field trips will be held instead). 2. Face Shields for all faculty and staff.	Administration		N

Monitoring Student and Staff Health

Key Questions

- How will you monitor students, staff, and others who interact with each other to ensure they are healthy and not exhibiting signs of illness?
 - Upon entering the building, the temperature of the students will be taken.
 - Daily, staff will be required to take their temperature and complete a monitoring form that asks if they are experiencing any signs of illness or shortness of breath/difficulty breathing.
 - Volunteers will be required to take their temperature and complete the monitoring form that asks if they are experiencing any signs of illness or shortness of breath/difficulty breathing.
- Where, to whom, when, and how frequently will the monitoring take place (e.g. parent or child report from home or upon arrival to school)?
 - Monitoring of students will take place daily prior to entrance to the building.
 - Student temperatures will be taken as they enter the building.
 - Any student who is exhibiting signs of illness will be sent to the designated area (office/nurse area) where the parent/guardian will be contacted by the office staff.
 - Signs of illness:

- Walk through scanner 97.5°F or higher Axillary and temporal thermometers 100°F or higher indicate a fever
 - Cough
 - Shortness of breath
 - Difficulty breathing
 - Or- (2 or more of the following symptoms)
 - Lack of smell or taste (without congestion)
 - Sore throat
 - Chills
 - Muscle Pain
 - Headache
 - Congestion or Runny nose
 - Nausea or vomiting
 - Diarrhea
 - Monitoring of staff will take place daily.
 - Staff will self-monitor using the thermometer provided.
 - Principal and/or office staff will review the monitoring form to assess the health of the staff.
 - In the event that a staff member is deemed ill, a substitute will be called to replace them.
 - Monitoring of Volunteers and others will take place as needed/as they enter the building.
 - Office staff and/or the Principal will review the monitoring sign-in form to assess the health of each volunteer.
- What is the policy for quarantine or isolation if a staff, student, or other member of the school community becomes ill or has been exposed to an individual confirmed positive for COVID-19?
 - If a staff or student becomes ill during the school day with COVID-19: (Note: flu season and allergy season will produce false positives in viewing symptoms. If a student or staff member has a fever they should immediately be sent home contingent on being fever free for 72 hours they should receive distant learning until they are not feverish.)
 - They will be immediately isolated from other students in a designated area, while awaiting transport
 - Wait up to 24 hours or as long as possible before you clean or disinfect to allow respiratory droplets to settle before cleaning and disinfecting;
 - The workspace of the sick individual will be closed off and then thoroughly cleaned and disinfected;
 - Thoroughly clean and disinfect all areas that the sick person may have used such as offices, bathrooms, and common areas;
 - Open outside doors and windows to increase air circulation in the areas where the infected individual was;
 - Completely clean and disinfect all surfaces in the isolation area after the sick student/staff member has left;
 - Individuals that have had close contact (<6 feet away for >15 minutes without wearing a mask) with the staff/student that has become ill may be asked to stay home and self-monitor for symptoms.

- Accommodations need to be made for the student's siblings. Options will be available for remote learning if quarantined
 - Other students and staff who have not had close contact will be monitored for signs of illness and/or asked to wear a mask.
 - In accordance with state and local laws and regulations, school administrators should notify [local health officials](#), staff, and families immediately of any case of COVID-19 while maintaining confidentiality in accordance with the [Americans with Disabilities Act \(ADA\)](#)
- If a member of the school community becomes ill with COVID-19:
 - Through regular communication, make sure that staff and families know that they (staff) or their children (families) should not come to school, and that they should notify school officials (e.g., the designated COVID-19 point of contact) if they (staff) or their child (families) become sick with COVID-19 symptoms, test positive for COVID-19, or have been exposed to someone with COVID-19 symptoms or a confirmed or suspected case.
 - Individuals that have had close contact with the community member that has become ill may be asked to stay home and self-monitor for symptoms.
 - All surfaces and areas that the individual who may have been exposed to the illness may have come into contact with should be completely cleaned and disinfected;
- Which staff will be responsible for making decisions regarding quarantine or isolation requirements of staff or students?
 - The Principal and/or Administrator will be responsible for making decisions regarding quarantine or isolation requirements of staff or students.
- What conditions will a staff or student confirmed to have COVID-19 need to meet to safely return to school?
 - Anyone who has tested positive for COVID-19 must provide two documented negative test results to the school prior to returning to school.
- How will you accommodate staff who are unable or uncomfortable to return?
 - If a staff member is symptomatic, they will need to have resolution of symptoms for 3 days AND at least 10 days have passed since the first symptom.
 - If a staff member is asymptomatic, then at least 10 days from date of positive test, presuming they have not developed symptoms within that time frame (CDC)
 - A substitute teacher will be provided to cover the classes for teachers not able to be in the school building.
- How will you determine which students are willing/able to return? How will you accommodate students who are unable or uncomfortable to return?
 - The school will follow state & local guidance in determining when a student or staff member may return to school after a potential exposure to an active COVID-19 infection. Students will be allowed to return to school after the prescribed self-quarantine time period. If the student does not wish to return because they are unable or uncomfortable to return, they may continue to participate in the classroom instruction virtually through Google Meet.
- When and how will families be notified of confirmed staff or student illness or exposure and resulting changes to the local Health and Safety Plan?

- The families will be notified through the parent alert system on the same day that the school is alerted of a positive COVID-19 case. During that time, they will be notified if there are needed changes to current school operational protocol.
- Which stakeholders will be trained on protocols for monitoring student and staff health?
 - All Faculty and staff members will be trained on how to Check for Signs and Symptoms of COVID-19 and what the proper procedure is once someone has been identified.
 - All Family members will be provided with information on how to Check for Signs and Symptoms of COVID-19 ([CDC](#), [PDE](#))
- When and how will the training be provided?
 - Training for the Faculty and staff will be conducted online and In person August 2020.
 - School families will receive educational materials (Flyers, videos, letters and memos) in the following safety actions: Enhanced sanitation practices, Physical distancing guidelines and their importance, Use of face coverings, Screening practices, COVID-19 specific symptom identification ([CA guidance](#), [CDC](#), [PDE](#))
- How will preparedness to implement as a result of the training be measured?
 - All faculty and staff will be required to pass a minimum competency test (google form) that will check for understanding on proper school procedures at the conclusion of the training.

Summary of Responses to Key Questions:

All Family members will be provided with information on how to Check for Signs and Symptoms of COVID-19. Through regular communications staff and families will know that they (staff) or their children (families) should not come to school if they are ill or exhibiting any signs of COVID-19, and that they should notify school officials. Everyone entering the school building will be monitored. Temperature scans and a general health survey will be completed and anyone experiencing any signs of illness or shortness of breath/difficulty breathing will be isolated and sent home. All Faculty and staff members will be trained on how to Check for Signs and Symptoms of COVID-19 and what the proper procedure is once someone has been identified. Anyone who has tested positive for COVID-19 must provide two documented negative test results to the school prior to returning to school. If the student does not wish to return because they are unable or uncomfortable to return, they may continue to participate in the classroom instruction virtually.

The families will be notified through the parent alert system on the same day that the school is alerted of a positive COVID-19 case. During that time, they will be notified if there are needed changes to current school operational protocol.

Requirements	Action Steps under Yellow Phase	Action Steps under Green Phase	Lead Individual and Position	Materials, Resources, and or Supports Needed	PD Required (Y/N)
* Monitoring students and staff for symptoms and history of exposure	1. When appropriate, in the yellow phase, schools will be utilizing a hybrid-model to limit the number of students	1. Screen students upon entering the school building using non-contact thermometer; <ul style="list-style-type: none"> a. Walk through scanner 97.5°F or higher 	Principal	Isolation Area; Non-Contact Temporal or Thermal Thermometers; Gloves; Hand	

	<p>in the building and classrooms.</p> <ol style="list-style-type: none"> 2. Essential employees only will be in the building. 3. All monitoring of student and staff Action Steps outlined in the green phase will be in place in the yellow phase. 4. Administration may send out communication asking that students/staff inform them of any symptoms or history of exposure but this can not be mandated. 	<ol style="list-style-type: none"> b. Axillary and temporal 100°F or higher 2. Any student exhibiting signs of illness is sent to the isolation area and parents/guardian is contacted to take the student home or to a healthcare facility. 3. Staff is required to complete a monitoring form upon entering the building (includes taking their temperature). <ol style="list-style-type: none"> a. Record temperature b. Are you taking any medication to suppress a fever? (y/n) c. Are you currently experiencing any of the following symptoms? <table border="1" data-bbox="806 708 1316 1149"> <thead> <tr> <th data-bbox="806 708 1026 800">1 or more symptoms</th> <th data-bbox="1026 708 1316 800">2 or more symptoms</th> </tr> </thead> <tbody> <tr> <td data-bbox="806 800 1026 1149"> Fever (100°F or higher) Cough Shortness of breath Difficulty breathing </td> <td data-bbox="1026 800 1316 1149"> Lack of smell or taste (w/out congestion) Sore throat Chills Muscle pain Headache Congestion or runny nose Nausea or vomiting Diarrhea </td> </tr> </tbody> </table> 4. Any staff member that exhibits signs of illness is sent home or to isolation room; 5. #8 – Secondary Contact of COVID-19 <u>without</u> Symptoms	Yes	14 days after the date of last exposure to the person with COVID-19 <ul style="list-style-type: none"> <input type="checkbox"/> If symptoms develop during 14 days, follow return to school guidance for scenario #5.

Other Considerations for Students and Staff

Key Questions

- What is the local policy/procedure regarding face coverings for staff? What is the policy/procedure for students?
 - Teach and reinforce the use of face coverings.
 - Face coverings should be worn by staff and older students as feasible, and are most essential in times when physical distancing is difficult. (CDC)

Strategic use of masks: Masks will be mandatory in certain situations, such as travel in the hallway, on the bus, classroom situations with non-cohort members, or when travel about the classroom is necessary without effective social distancing. When a child is at his desk with his cohort in a socially distant situation, the student may remove his mask. Using these principles, a student then can remain mask free for the majority of the day, unless a parent indicates they would like their child to keep their mask on the entire day. ([Archdiocese of Philadelphia](#))

Consideration should be made for students and staff to have masks available to use in circumstances when social distancing may be challenging. (le entering and exiting, on bus in line for the cafeteria or restroom etc) ([Diocese of Cleveland](#))
 - Cloth face coverings should not be placed on: ([CDC](#))
 - Children younger than 2 years old
 - Anyone who has trouble breathing or is unconscious
 - Anyone who is incapacitated or otherwise unable to remove the cloth face covering without assistance
 - Cloth face coverings are meant to protect other people in case the wearer is unknowingly infected but does not have symptoms. Cloth face coverings are not surgical masks, respirators, or other medical personal protective equipment.

- What special protocols will you implement to protect students and staff at higher risk for severe illness?
 - Establish a standard routine of checking the health status of all those who enter the school including students, faculty, staff and volunteers including temperature check and questionnaires.
 - School personnel need to be directed and educated about putting on PPE, especially if assisting a student or colleague that develops symptoms concerning COVID-19.
 - Have PPE resources available and ensure staff knows where they are located.
 - Re-evaluate school “calling in sick” procedure. Establish protocol for a report on student symptoms, length of illness etc.
 - Strengthen a “return to school” protocol including benchmarks that would allow a student or staff member to return to school.
 - Schools in the Diocese of Pittsburgh are following the Federation of Diocesan Pittsburgh Schools Agreement and/or the Handbook of Personnel Policies and Practices for Elementary Schools. Any student who cannot wear a mask or face shield due to a medical condition, including those with respiratory issues that impede breathing, a mental health condition, or disability and students who would be unable to remove a mask without assistance are not required to wear face coverings.

- Individuals who are communicating or seeking to communicate with someone who is hearing impaired or who has another disability, where the ability to see the mouth is essential to communication, are not required to wear a mask; however, individuals should consider using another type of face covering such as a plastic face shield.
- How will you ensure enough substitute teachers are prepared in the event of staff illness?
 - Put out a Parent/Community Interest Survey
 - Local Intermediate Units offer emergency certification for those with a Bachelor’s Degree and all required clearances.
- How will the LEA strategically deploy instructional and non-instructional staff to ensure all students have access to quality learning opportunities, as well as support for social emotional wellness at school and at home?
 - If not already done, survey school population to determine equity in devices and internet access.
 - Choose a consistent school wide communication platform and consistent apps for delivery learning and support.
 - Create a solid partnership with guidance counselors, social workers etc through your local IU.
 - Develop an onboarding plan for all students to orient them to any new procedures in school before the school year begins.
 - Create new ways to orient students and families who are new to the school.
 - Focus on making the school environment safe and secure while still warm and welcoming.
 - In collaboration with guidance counselor, create activities/help opportunities with check-ins to create a plan for identifying students with needs. (emotional, mental etc.).
 - Create ways to mitigate stress responses in students, teachers, and families.
 - Create a communication platform with parents (coffee/tea with principal, roundtables etc.), keeping the line of communication open.

Summary of Responses to Key Questions: Schools will establish a standard routine of checking the health status of all who enter the school and provide PPE resources if needed. CDC guidelines will be followed for face masks and/or shields. Accommodations for safety protocols will be made for both staff and students as needed. Other changes that may be necessitated for the health and safety of the staff will follow appropriate protocols.

Requirements	Action Steps under Yellow Phase	Action Steps under Green Phase	Lead Individual and Position	Materials, Resources, and or Supports Needed	PD Required (Y/N)
* Protecting students and staff at higher risk for severe illness	Schools may provide in-person instruction after developing a written Health and Safety Plan, to be approved by the local governing body (e.g. board of directors/trustees) and posted on the school entity’s publicly available website.	1. Establish a standard routine of checking the health status of all who enter the school. Ask staff and students and parents to identify themselves as higher risk. 2. Have PPE resources available to all who enter the school and ensure all staff knows where they are located.	Principal Teachers	no contact thermometer masks gloves (if necessary)	N

opportunities for awareness and education.

Health and Safety Plan Professional Development

The success of your plan for a healthy and safe reopening requires all stakeholders to be prepared with the necessary knowledge and skills to implement the plan as intended. For each item that requires professional development, document the following components of your professional learning plan.

- **Topic:** List the content on which the professional development will focus.
- **Audience:** List the stakeholder group(s) who will participate in the professional learning activity.
- **Lead Person and Position:** List the person or organization that will provide the professional learning.
- **Session Format:** List the strategy/format that will be utilized to facilitate participant learning.
- **Materials, Resources, and or Supports Needed:** List any materials, resources, or support required to implement the requirement.
- **Start Date:** Enter the date on which the first professional learning activity for the topic will be offered.
- **Completion Date:** Enter the date on which the last professional learning activity for the topic will be offered.

Topic	Audience	Lead Person and Position	Session Format	Materials, Resources, and or Supports Needed	Start Date	Completion Date

Health and Safety Plan Communications

Timely and effective family and caregiver communication about health and safety protocols and schedules will be critical. Schools should be particularly mindful that frequent communications are accessible in non-English languages and to all caregivers (this is particularly important for children residing with grandparents or other kin or foster caregivers). Additionally, LEAs should establish and maintain ongoing communication with local and state authorities to determine current mitigation levels in your community.

Topic	Audience	Lead Person and Position	Mode of Communications	Start Date	Completion Date
Plan Preview and Evaluation	Staff	Principal	Zoom Meeting	July 20, 2020	July 20, 2020

Health and Safety Plan Summary: **St. Gabriel of Sorrowful Virgin School**

Anticipated Launch Date: **August 27, 2020**

Use these summary tables to provide your local education community with a detailed overview of your Health and Safety Plan. LEAs are required to post this summary on their website. To complete the summary, copy and paste the domain summaries from the Health and Safety Plan tables above.

Facilities Cleaning, Sanitizing, Disinfecting and Ventilation

Requirement(s)	Strategies, Policies and Procedures
* Cleaning, sanitizing, disinfecting, and ventilating learning spaces, surfaces, and any other areas used by students (i.e., restrooms, drinking fountains, hallways, and transportation)	<ul style="list-style-type: none">- The school will be closed and empty by 3:30 pm daily. At that point the cleaning company Estocin Property Services will ensure that the building is cleaned, sanitized, and disinfected in accordance with all CDC Guidelines. The building will remain closed until the start of the next school day.- Drinking fountains will be non-operational and will be wrapped.- Parents/teachers will be asked to donate cases of bottled water to be stored in each classroom to ensure kids have access to water.- In order to ventilate learning spaces, all windows and doors are to remain open until further notice.- Teachers will have sanitizing materials available so they and the students can sanitize common touch areas throughout the day as needed.- All Bathrooms will be sanitized and disinfected during the school day and also at night during the cleaning/sanitation process.- In the boy's bathroom's, certain urinals will be blocked to provide adequate distancing.

	<ul style="list-style-type: none"> - Hallways and stairwells will operate as 1 one-way traffic flows. Signage on the floor and walls will help direct and indicate. - In order to reduce hallway traffic, teachers will travel to classes while students will remain in their homeroom. - Hand sanitation stations have been installed in each classroom and in common areas throughout the building. These will be monitored frequently and refilled as needed.
--	---

Social Distancing and Other Safety Protocols

Requirement(s)	Strategies, Policies and Procedures
<p>* Classroom/learning space occupancy that allows for 6 feet of separation among students and staff throughout the day, to the maximum extent feasible</p> <p>* Restricting the use of cafeterias and other congregate settings, and serving meals in alternate settings such as classrooms</p> <p>* Hygiene practices for students and staff including the manner and frequency of hand-washing and other best practices</p> <p>* Posting signs, in highly visible locations, that promote everyday protective measures, and how to stop the spread of germs</p> <p>* Handling sporting activities consistent with the CDC Considerations for Youth Sports for recess and physical education classes</p> <p>Limiting the sharing of materials among students</p> <p>Staggering the use of communal spaces and hallways</p>	<ul style="list-style-type: none"> - All classrooms are equipped to handle 6 feet of spacing for students except 2B which is our smallest room. - Since the Spanish room can accommodate the spacing requirement, and the Spanish teacher will be traveling classroom to classroom, 2B will temporarily be housed in the Spanish room. - The kindergarten classes as well as 8A will have the tables temporarily removed and replaced by individual student desks to accommodate spacing requirements. - Students will remain in their classrooms for all special classes except for gym class. Teachers will travel room to room when necessary. <ul style="list-style-type: none"> - No big gatherings. We will utilize virtual field trips and virtual assemblies. - It has been strongly encouraged to restrict the use of the cafeteria for lunch. Until further notice the students will eat in their homeroom classrooms.

Adjusting transportation schedules and practices to create social distance between students

Limiting the number of individuals in classrooms and other learning spaces, and interactions between groups of students

Coordinating with local childcare regarding on site care, transportation protocol changes and, when possible, revised hours of operation or modified school-year calendars

Other social distancing and safety practices

- The school lunch program will reflect these restrictions by providing a daily pre-packed box/bagged lunch option.
- Further information on participation in the lunch program will be forthcoming from the cafeteria manager Mrs. Marnie Rossa.
- Students can also bring their own lunch from home.
- The school nurses will conduct frequent classroom lessons for all grades on the proper hygiene similar to the ones they have been doing for the last several years.
- Teachers and staff will complete training to ensure they are up to date on new information and best practices.
- Signage will be posted throughout the building encouraging proper hygiene, social distancing, and any other vital information to stop the spread.
- The St. Gabriel Athletic Association has formulated their plan as directed by the Diocese of Pittsburgh. Their plan is available on the school website as well.
- Physical Education class will be held outdoors whenever weather permits.
- The main focus of Physical Education classes will be on overall health and well-being, utilizing activities that promote social distancing and meet all CDC requirements.
- Equipment will not be used unless proper sanitation protocols can be implemented as per CDC Guidelines.
- Traditional recess with the use of materials will be postponed until further notice.
- Classrooms will be given daily opportunities to go outside and get some fresh air. These outdoor recess times will be

staggered throughout the day to ensure the proper social distancing.

- Outdoor lessons and classes will be encouraged.

- Students will be required to have their own materials, no shared materials.

- Addressed by one way hallways, social distancing markers, and communication amongst teachers as to when they need to travel to another area.

- Morning arrival is staggered between 8:00 a.m. – 8:25 a.m.

- All students arriving will go directly to their homerooms upon arrival.

- Afternoon dismissal will be the same as it has been. We have always been able to stagger dismissal. Students riding busses will stay in their homeroom until their bus is called.

- Walkers will be dismissed prior to car riders in order to help with the staggering.

- Car riders will report to the gym area to be dismissed. Social distancing markers will aid in providing safe social distancing.

- Bus schedules and procedures are determined by individual school districts. Students and families are required to abide by those guidelines.

- Students will be in self-contained classrooms.

- Teachers will travel to the classroom for subjects not taught by their homeroom teachers.

- Classrooms will not exceed 24 students per room.

	<ul style="list-style-type: none"> - Students will remain with their homeroom group only. - Volunteers will be very limited and subject to health and temperature checks when entering the building. - We are and will continue to be in communication and work together with all of our local school districts and entities.

Monitoring Student and Staff Health

Requirement(s)	Strategies, Policies and Procedures
<ul style="list-style-type: none"> * Monitoring students and staff for symptoms and history of exposure * Isolating or quarantining students, staff, or visitors if they become sick or demonstrate a history of exposure * Returning isolated or quarantined staff, students, or visitors to school Notifying staff, families, and the public of school closures and within-school- year changes in safety protocols 	<ul style="list-style-type: none"> - Students will undergo daily Health Screenings before leaving home. Parents and guardians will check each of their child’s temperature, any student with a temperature of above 100.0 will need to remain home. Part of the screening is also questioning your students and monitoring for the following symptoms: Cough, Shortness of breath, difficulty breathing, sore throat, loss of taste, loss of smell, chills, head ache, muscle aches, nausea, diarrhea, or vomiting. If any of those symptoms are present, students will need to stay home. This is a responsibility that we all must take seriously and adhere to protect everyone. - Teachers/staff/volunteers will undergo daily health screenings that include temperature checks and questionnaires. - Families that have to travel during the school year will need to communicate that to the school and follow all CDC and State

	<p>Guidelines concerning quarantine periods when traveling to certain areas.</p> <ul style="list-style-type: none"> - Any student who becomes ill during the school day with fever or symptoms, will be isolated in either the nurse's room or computer lab until they are able to be picked up. - Any staff who become ill will be sent home immediately. - Please see chart on pg. 28: <i>Exclusion from and Return to School Requirements Form</i> - If an exposure or infection occurs in our building, the school pandemic team in conjunction with local health officials such the Allegheny County Health Department, will determine which steps need to be taken to ensure the continued safety and well-being of all staff and students. - We will communicate any of these occurrences in our school community in an effort to be as transparent as possible while also protecting individual rights afforded by the Americans with Disabilities Act (ADA) - We will be in constant communication with any changes through our one call system. - Calendar changes and updates will also be reflected on the school website.
--	---

Other Considerations for Students and Staff

Requirement(s)	Strategies, Policies and Procedures
<p>* Protecting students and staff at higher risk for severe illness</p>	<p>- Accommodations will also be made on an as needed basis and examined on a case by case basis.</p>
<p>* Use of face coverings (masks or face shields) by all staff</p>	<p>- All staff will be required to wear masks and or face shields. Face shields will be encouraged during instruction so students can see their teachers face.</p>
<p>* Use of face coverings (masks or face shields) by older students (as appropriate)</p>	

Unique safety protocols for students with complex needs or other vulnerable individuals

Strategic deployment of staff

- Students will be required to wear masks or shields in all common areas, during arrival and dismissal, in the hallways, bathrooms, and wherever social distancing is not possible.
- In the classroom, where the student desks are socially distanced at 6 feet apart, students will be able to remove their mask if they feel comfortable in doing so.
- Students or staff that cannot wear a face covering will need to provide a note from a physician.
- Frequent check-ins with the students to monitor mental health will be done by the staff and we will utilize our school counselor Melissa Kuentz.
- Gym uniforms will be permitted to be worn all day on the student's day of gym which will eliminate the need for students to change in a locker room. Students are permitted to wear gym clothes even if gym class falls on a mass day.
- We will rotate in person mass weeks in order to properly social distance while at mass. Some students will attend mass, others will attend mass virtually through a live stream in their classroom. For example, week 1 grades 4-8 in person, week 2 grades K-3 in person.
- Families opting for cyber instruction will be provided that opportunity. If this is something you are considering please reach out to Mr. Militzer.
- Hybrid Instruction will be available as well for any families interested.
- Hybrid and Cyber Instruction is being planned for all grades in the chance that the state or local government limits the ability to attend school in person.

- We are continuing to finalize the details of our hybrid and cyber learning plans and will be communicating and sharing the details in the coming week.

- Your comments and feedback in regards to online learning have been extremely helpful and one thing that came up often was the need for more live instruction and a set schedule. Both of those will be a part of our model's should hybrid or full cyber instruction be needed.

Again, our goal is to start and remain in a brick and mortar setting with in person instruction. However, I assure you we will be ready should that change.

Health and Safety Plan Governing Body Affirmation Statement

The Board of Directors/Trustees for South Regional Catholic Elementary Schools reviewed and approved the Phased School Reopening Health and Safety Plan on **July 29, 2020**.

The plan was approved by a vote of:

Yes

No

Affirmed on: **July 29, 2020**

By:

(Signature of Board President)*

Reverend David G. Poecking

*Electronic signatures on this document are acceptable using one of the two methods detailed below.

Option A: The use of actual signatures is encouraged whenever possible. This method requires that the document be printed, signed, scanned, and then submitted.

Option B: If printing and scanning are not possible, add an electronic signature using the resident Microsoft Office product signature option, which is free to everyone, no installation or purchase needed.
